TO MY GARDENING FRIENDS

Greetings to all our friends, valued customers, and those new to the world of "Fernclyff". It's our 92nd year of offering exciting new introductions, a huge selection of tried and true performers and our well-priced collections. Enjoy this new 2012 catalogue and view the website also.

2012 brings some very fine additions to our dahlia list. I am introducing five new varieties this year, "FERNCLIFF BRASSY" and "FERNCLIFF SNOWFIRE" are excellent choices for any garden display. See page 1 for these exciting introductions.

2011 was another odd disappointing year for weather. Cooler temperatures prevailed each month till August. Summer was so short this year, making it very challenging, but with lots of hard work and TLC the dahlia crop has turned out excellent.

Sheila and I love our time with our grandchildren. How they grow! Riley (12) is now in Grade Seven in High school, and Amelia (11) is now in Grade Six. Amanda (5) is in fulltime kindergarten. We are blessed that they all live close by.

All of us at Fernclyff would like to thank our customers, and to our prospective new customers, try us and join in the excitement of growing dahlias. We look forward to serving you this season. Happy gardening to all of you in 2012. from everyone here at Fernclyff.

Happy Gardening,

David + Sheila

DAHLIAS

Dahlias are grouped according to their size of bloom. A star (*) marks exhibition varieties. The letter (C) marks kinds suitable for cut flowers. The approximate diameter, form, and a brief colour description are listed. Relative first bloom appearance is indicated. (Early, usually one to two weeks ahead of Mid-season). Relative heights follow. We reserve the right to substitute, if sold out, with varieties of similar form, colour and equal or better value, unless instructed not to do so.

KEY TO ABBREVIATIONS

- FD ... Formal Decorative (broad petals)
ID Informal Decorative (broad petals with a slight wave)
WL ... Waterlily type (broad flat petals)
IC Incurved Cactus (petals heavily rolled and twisted, tips curving inwards)
SC ... Semi-Cactus (petals broad at flower center, rolled or twisted towards tips)
C Straight Cactus (petals straight, but rolled most of their length)
LC Lacinated (Petals split with twisting of petal tips)

Blooming codes:

E - Early, **EM** - Early to Mid season, **M** - Mid season

NEW DAHLIA INTRODUCTIONS FOR 2012

D. Jack - Originator

- FERNCLIFF BRASSY** - BB ID Y Another of my wonderful "Ferncliff" garden varieties - free flowering, good stems, a great cutter, strong growth. Colour is bright yellow. Plants grow 5' tall. An excellent choice for your garden. **12.00**
- FERNCLIFF COMMAMCHE** - BB ID R A lively colour - deep glowing orange red. Blooms remind you of a slightly paler TARATAHI RUBY. Sturdy stems. Good garden variety. **12.00**
- FERNCLIFF ENVY** - B SC R This rich red 7" semi-cactus has the colour sheen needed in reds. Colour saturation is excellent. Blooms are abundant on 4' bushes. Admired in our showgarden. **18.00**
- FERNCLIFF SNOWFIRE** - BB SC W Outstanding! My 2012 white beauty. Blooms have excellent depth with petals filling well to back. Plants are 5 1/2' and very floriferous. Can be a winner. **15.00**
- MISSION SHADOWS** - B ID DR Early to bloom. This dark red decorative is a great addition. Petals reflex slightly giving good depth of bloom. Robust 5' plant carries many blooms on sturdy stems. **10.00**
